

30.20 Major Project Application Processing

30.20.010 Purpose.

- a. The purpose of this Chapter is to provide standards and procedures for the acceptance, processing, hearing, and final action on applications for the residential and/or mixed use development of lands designated for future growth or lying beyond the current infrastructure capacity projected to meet the near term urban growth. It allows the comprehensive consideration of such projects and the infrastructure required for them, in accordance with the purpose of the Comprehensive Plan per Chapter 30.12 (The Comprehensive Plan and Community Districts).
- b. Additionally, NRS 278 provides authority for the County to carry out its plan for infrastructure financing through the negotiation of development agreements.
- c. The guidelines which establish the development process options under which a project developer may proceed with a Major Project are outlined in this Chapter. (Ord. 3622 § 2 (part), 4/2008)

30.20.020 Qualification and Requirements for Major Projects. Qualification requirements and development agreement options for Major Projects are established as follows:

1. Any residential or mixed use project of seven hundred (700) acres or more shall be considered a Major Project and shall require the negotiation of a Master Development Agreement with oversight from the Major Projects Team.
2. Any residential or mixed use project of three hundred (300) acres or more that is located outside the Urban Area shall be considered a Major Project and shall require negotiation of a Master Development Agreement and utilization of the Major Projects Team. Projects of three hundred (300) acres up to seven hundred (700) acres that are located within the Urban Area may, at the applicant's request, negotiate a Master Development Agreement and utilize the Major Projects Team.
3. Residential or mixed use projects between one hundred (100) acres up to three hundred (300) acres may petition the Board to negotiate a Master Development Agreement and to utilize the Major Projects Team.
4. Projects located within an approved Public Facilities Needs Assessment (PFNA) area shall be required to utilize the Standard Development Agreement and do not qualify as Major Projects.
5. Projects within the PCD (Planned Community Development) land use designation of the Lone Mountain/Centennial Hills planning area shall be processed as Major Projects (regardless of size) and shall be required to negotiate a Master Development Agreement with the County. (Ord. 3622 § 2 (part), 4/2008; Ord. 3229 § 4, 6/2005; Ord. 2868 § 1, 3/2003)

30.20.030 Application Processing for Major Projects. Applications for a Major Project shall be processed and conform to the requirements per Tables 30.20-1 through 30.20-8.

Following the approval of a Specific Plan, or land use plan map amendment and a Public Facilities Needs Assessment, a zone boundary amendment may be submitted in accordance with Table 30.16-3 of this Title to establish a Planned Community overlay district and to increase the allowable density or intensity of use as provided by Part A of Chapter 30.12, which must be approved in conjunction with a Master Development Agreement. The Zoning Administrator shall not schedule such an application until he/she confirms that the development agreement has been approved or can be scheduled with the amendment for joint consideration.
d. Application Process	See Chapter 30.16.060 (Zone Boundary Amendment) and Table 30.16-3 (Zone Boundary Amendment - conforming) for processing procedures, requirements, and conditions not otherwise shown in this table.
e. Approval Authority	Board
f. Standards for Approval	<ol style="list-style-type: none"> 1. A P-C Planned Community overlay district may be approved if the applicant demonstrates that the application is in conformance with the approved Specific Plan or land use plan map amendment and public facilities needs assessment approved for the project. Prior to map approval or issuance of any permits, other than those permits issued under this Section, a development plan must be reviewed and approved in accordance with Table 30.20-8 (Development Plan). 2. The P-C Planned Community overlay district is intended to provide for the use of creative design concepts to help meet market demands and encourage the effective use of the natural topography, open space, and other natural or existing features, and create opportunities for the implementation of private sector proposals of new concepts to address community needs. These concepts would be addressed through a special use permit to modify development standards. 3. Approval of the P-C Planned Community overlay district shall include the planned community parameters.
g. Modifications to Plans	Changes to plans are subject to the standards listed in 30.20.120.
h. Time Limit if Approved	No time limit. Upon approval, an ordinance to finalize the zoning shall be prepared and introduced for consideration by the Board.

j. Standards for Approval	<p>The development agreement may be approved if the Board determines that:</p> <ol style="list-style-type: none"> 1. The issues identified in the Public Facilities Needs Assessment relating to this project have been adequately addressed; 2. A development agreement is a necessary and appropriate mechanism to implement the development of the project; 3. The development agreement is consistent with the objectives, policies, general land uses and programs specified in the master plan; 4. The development agreement is compatible with the uses authorized in, and the regulations prescribed for, the zoning district in which the property is located and all other provisions of this Title; 5. The development agreement is in conformity with the public convenience, general welfare and good land use practices; 6. The development agreement will not be detrimental to the public health, safety and general welfare; 7. The development agreement will not adversely affect the orderly development of property or the preservation of property values; and 8. The development agreement is consistent with the provisions of NRS Chapter 278.
k. Vesting of Rights	<p>Any development agreement approved and adopted pursuant to this Chapter may provide that the property owner will be vested for specific development rights only upon achieving specific progress thresholds. Such progress thresholds shall be based on the construction of specific public or private improvements or the submission of Specific Plans or data prior to the exercise of certain development rights. The property owner or applicant shall acquire no vested rights other than those allowed in the agreement and otherwise provided under the laws of Clark County, the state of Nevada or governmental or quasi-governmental bodies. l. Time Limit if Approved	As specified in the agreement, subject to a two year review of the agreement. If approved, the agreement shall be adopted by ordinance in accordance with the Nevada Revised Statutes. An updated development schedule shall be included with each two (2) year review.
m. Withdrawal	An application withdrawn by the property owner or applicant shall cease its consideration. Thereafter, the only consideration shall be whether the application is withdrawn without prejudice and is therefore not subject to the re-petition limits described below
n. Denial	The denial of an application shall constitute a finding by the Board that the application is inconsistent with the standards and purposes enumerated in the Plan, this Title, and/or the Nevada Revised Statutes.
o. Finality of Decision	Following a reconsideration period of five (5) working days, action shall be final, effective the date of action on the application, unless reconsidered. Following Board or Commission action, the applicant shall be notified of the decision. No permits or licenses shall be issued until the action becomes final.
p. Expiration of an Application Not Acted On	An application shall expire if more than six (6) months elapse from the last announced public hearing date without a request by the applicant for rehearing, in which case the re-petition limits shall apply.
q. Applicability to Code	When specified in the development agreement, the laws, ordinances, codes, resolutions and regulations (except for fees, monetary payments, submittal requirements or review procedures prescribed by ordinance for any provision relating to standards and specifications that have been adopted by the Regional Transportation Commission and Clark County Regional Flood Control District and those sections of the Code which apply to state and federal laws and regulations; uniformly applying to all development and construction) in effect as of the effective date of the agreement shall apply to all development within the community. If not specified, the laws, ordinances, codes, resolutions and regulations in effect at time of map approval or permit issuance shall apply, unless changed by an amended Development Agreement.
r. Reconsideration	<ol style="list-style-type: none"> 1. Request. A member of the Board who voted in favor of the motion which carried may request that the agreement be reconsidered if received by the Zoning Administrator within five (5) working days of a decision, in which case the decision shall not become final. The amendment shall thereafter be scheduled for a hearing before the Board within thirty-five (35) calendar days. 2. Rehearing. Should the Board approve reconsideration of the decision at the hearing, the agreement shall be scheduled for a public hearing at a subsequent meeting of the Board. If the Board approves reconsideration of an item originally denied, the property owner or applicant shall pay a re-notification fee as required by Chapter 30.80 Fees, not less than fifteen (15) calendar days before the date for which the public hearing is scheduled, and prior to notice being sent.

1. For projects of regional significance, city notification shall include a radius of one-half mile (2,640') from the boundary of any adjacent city.

(Ord. 3549 § 4(part), 9/2007; Ord. 3518 § 5 (part), 5/2007; Ord. 2756 § 4 (part), 6/2002; Ord. 2510 § 4 (part), 2000)

30.20.110 Document Submittal Requirements. All major project applications shall be accompanied by the documents and information described below when required by Tables 30.20-2 thru - 9.

- a. All documents shall be legible and suitable for microfilm reproduction. All plans must be accurate, drawn to a standard scale, and folded so they can be placed into a legal file. For an application to be acceptable for processing, all required documents which are applicable to the specific application must be filed:
 1. **Pre-application Conference List.** A signed and completed copy of the pre-application conference list showing the results of the conference, and additional materials required, if any. In addition, the list shall include:
 - A. **Entitlement and Public Meeting Schedule.** A tentative working schedule outlining the applicant and staff understanding of proposed dates for filing submittal requirements and corresponding public meeting dates; and
 - B. **Preliminary Report.** A report estimating the approximate amount of water and sewage capacity required with the approximate dates the supply will be needed, showing that sufficient power can be provided to the site in a timely manner, and detailing any other information identified and deemed necessary as a result of the pre-application conference.
 2. **Application.** A signed application, notarized when required by the Zoning Administrator, detailing the nature and justification for the request.
 3. **Plan/Report.** A map or maps, and report if necessary, showing the proposed neighborhood plan boundaries, dimensions, total acreage, generalized land use categories, amount and percentage of acreage in each land use category, significant characteristics of the site and surroundings including topography and built, proposed transportation and circulation routes to and within the project, distance from various governmental and utility services, how and when service will be provided to the proposed development, existing and planned land uses of adjacent properties, vicinity map, and other data or reports as may be required following the review of materials in the pre-development conference. This refers to draft plan, specific plan or land use plan.
 4. **Site Plan.** A site plan or plans showing the following for the neighborhood plan or proposed P-C Planned Community overlay district:
 - A. The neighborhood plan project boundaries, dimensions, overall density, and acreage;
 - B. The proposed land uses and land use categories, including their locations and configurations, the amount of acreage and percentage of total site area of each category, the amount of open space or recreational facilities on public property or common area, and approximate location of public uses such as schools, parks, fire and police stations;
 - C. Significant natural characteristics of the site and surroundings including topography, drainage, subsidence, faults, other geologically unstable areas, or any other natural characteristic which may affect development of the land;
 - D. Existing and proposed drainage facilities, arterial and collector streets, and major utility facilities;
 - E. The major transportation and circulation routes as identified in the Public Facilities Needs Assessment;

- F. The existing land uses of adjacent properties and the planned land uses of adjacent properties as indicated on a land use plan adopted by the Board or other local governing body if within their jurisdiction;
 - G. Existing physical or cultural features which are intended to be preserved, if any;
 - H. A vicinity map;
 - I. Locations of major grading or regrading; and
 - J. Accommodations for major utilities.
5. **Justification letter.** A letter stating the reasons which justify the approval of an application, including an analysis of outstanding issues, the intended uses and nature of the request, how the application is compatible with the plan and this Title, its impact on adjacent properties, the need for any public utility or public services, actions to be taken to minimize any detrimental impacts of the proposal, and, if applicable, the time period for which the permit is sought. The letter shall address the justification for the specific application for which it is submitted, and shall describe any previous and/or pending actions with regard to the proposed project, including application numbers and dates of hearings.
6. **Public Facilities Needs Analysis.** Provide the following calculations, analysis or assessments:
- A. **Transportation.** Transportation and street network analysis addressing the impacts of vehicular and pedestrian traffic generated at full build out of the neighborhood plan. The analysis must estimate traffic volumes generated by the proposed development of the neighborhood plan and distribute and assign these volumes to the study area streets and intersections. The analysis must recommend a network of arterial and collector streets that will accommodate the traffic volumes projected at the build out of the neighborhood plan at a level of service ADD or higher. The limits of the study area will be determined in a meeting between the developer and the Clark County Traffic Engineer. A level of service analysis must be furnished for each study area intersection under estimated build out traffic volumes. The preliminary traffic analysis shall include proposed mitigation measures to improve the level of service of any intersection within the study area projected to have a level of service "D" or lower due to the proposed development. The proposed arterial and collector network must be presented with estimated lane requirements. Regional continuity and connectivity of the proposed arterial and collector network shall be demonstrated.
 - B. **Fire and Police Protection.**
 - i. Assessment of the ability of the Clark County Fire Department to provide minimum fire protection services within the Neighborhood Plan. A report shall be submitted presenting data indicating that existing suppression, EMS and prevention services, together with the administrative load associated with such services, are present to facilitate construction and ongoing life of the project. All data required is per the Safety Element of the Clark County Comprehensive Plan.

The data shall analyze the project demand with respect to existing Clark County Fire Department personnel, facilities and services in the following areas, at a minimum: 1) presence of adequate potable water supply in accordance with the Fire Code; 2) project location with respect to service area of existing fire stations; 3) response time required from existing fire stations to the project, compared to recognized response time requirements; 4) anticipated number of project response calls; 5) number of response calls expected to be reasonably handled by existing suppression and EMS

services in the project service area; 6) special dangers accompanying storage, use, or processing of hazardous materials associated with the project; 7) inspection man-hours required; 8) review man-hours required; and 9) any other project facilities, equipment, appurtenances, or devices required to deliver suppression, EMS and prevention services that exceed Clark County Fire Department current capacity, as identified by Clark County Fire Department.

Where analysis determines existing services provided by Clark County Fire Department are not sufficient to manage the demand of the project, the applicant must indicate how the existing services will be augmented to provide adequate suppression, EMS and prevention services for the project. If existing potable water supply and fire fighting services are not adequate to accommodate the proposal, the applicant must indicate how existing services will be augmented to provide adequate fire protection.

- ii. Assessment regarding the Las Vegas Metropolitan Police Department to include the following: 1) number of dwelling units; area (square feet) of non-residential uses, hotel/motel/resort rooms, hotel/casino, and acreage to be developed; 2) number of calls for police service in the vicinity and average police response time; 3) identification of any security measures proposed to be provided for the project by the petitioner; 4) address the effect of any officially adopted plans and/or schedules for publicly provided improvements; 5) distance from the site to the nearest police services, including facilities planned but not yet constructed, and facilities which have been included in a plan for capital improvements prepared by the appropriate local government pursuant to NRS 278.0226; and 6) the ability to provide a pro rata share of costs for one fully equipped police substation, or fraction thereof, per one hundred twenty-five thousand (125,000) residents.

C. Flood Control and Drainage. Conceptual Master Flood and Drainage analysis.

D. Parks/Trails. Preliminary parks plan based on 2.5 acres per 1,000 population park space, as defined by the Clark County Parks Department. The balance may be part of a trail system or open space. Identify trails or possible linkages to the Las Vegas Valley Pedestrian/Bicycle Trail System.

E. Schools. School site analysis based on the criteria established by the Clark County School District. This analysis is intended to result in identification of existing and proposed school sites and appropriate infrastructure to support such sites necessary to serve the neighborhood plan and not to identify on-site structural requirements.

F. Water and Sewer Services. Water and sewer service analysis based on the criteria established by the Las Vegas Valley Water District and the Clark County Sanitation District.

G. Employment Analysis. A report giving the overall number of jobs proposed to be generated if other than a residential development.

H. Analysis Summary. A summary report of the analysis, issues, improvements and proposed phasing of improvements concurrent with development of the neighborhood plan, and including a list of suggested members of the review team for the project and the proposed schedule for the review process.

- 7. **PFNA Acceptance Letter.** A letter from the Director of Comprehensive Planning indicating that the needs analysis has been submitted as required and has been accepted as sufficient for consideration by the Board of County Commissioners.

- 8. Development Schedule.** The development schedule is a non-binding best estimate of the developer showing approximate phasing and proposed sequence of development, and anticipated requirements for the entire project, including approximate dates of commencement and completion of the planned community for a five year period, to be used by affected governmental and public utility entities to anticipate the need for services within the neighborhood plan. The development schedule shall be complete if it contains for the following:
- A. Subdivision Maps.** The number of tentative maps and final maps to be submitted for approval, including the number of lots per map and the total number of lots;
 - B. Building Permits.** The total number of residential units and commercial and industrial projects, and the square footage of all commercial and industrial development;
 - C. Public Facilities.**
 - i.** Location, type and size of regional drainage facilities to be constructed;
 - ii.** Number of parks/trails to be constructed, their size and location;
 - iii.** Number of fire stations to be constructed and their location;
 - iv.** Number of schools to be constructed, their type and location;
 - v.** Number of police stations to be constructed and their location;
 - vi.** Number of libraries to be constructed, their size and location; and
 - vii.** Number of other public facilities to be constructed, their type, size and location.
 - D. Traffic Generations.** An analysis of projected traffic, including the number of trips to and from the project per day, and the number of internal trips per day;
 - E. Demographic Data.** An analysis of projected population and jobs within the project;
 - F. Water.** An evaluation of the number of acre-feet of water to be used and the location, size, and type of water facilities and distribution lines; and
 - G. Sewer.** An evaluation of the daily average and peak flows to be generated in millions of gallons per day and the location, size, and type of sewer facilities and distribution lines.
- 9. Development Plans.** Plans showing:
- A.** The boundary of the planned community or neighborhood plan;
 - B.** Overall density;
 - C.** Physical or cultural features intended to be preserved;
 - D.** Locations of major grading or regrading;
 - E.** Topographic character of the land;
 - F.** Accommodations for major utilities;

- G.** Location of faults and geological unstable areas which preclude the development of certain land; and
- H.** Location of existing or proposed uses of the land, including, but not limited to, the approximate location and configuration of different types or densities of dwelling units, the approximate location of recreational facilities or open space areas proposed on public property or within the common area, and the approximate location of existing or proposed public uses such as schools, parks, fire and police stations, etc.

10. Development Agreement.

A. A development agreement shall:

- i.** Describe the land subject to the development agreement;
- ii.** Specify the permitted uses of the property, the density or intensity of the uses, and the maximum height, size and setbacks of proposed buildings;
- iii.** Provide, where appropriate, for reservation or dedication of land for public purposes, including, but not limited to rights-of-way, easements or public facilities, as may be required or permitted pursuant to laws, ordinances, resolutions, rules or plans adopted by the Board or the regional transportation commission and in effect at the time of entering into the agreement;
- iv.** Specify the duration of the agreement and, if desired, terms for modification and extension of the agreement; provide that the parties shall not be precluded from extending the termination date by mutual agreement or from entering into subsequent development agreements or supplements thereto;
- v.** Specify the laws, ordinances, codes, resolutions, rules, regulations, plans, design and improvement standards by name and date of adoption applicable to the project. Unless specified in the agreement or unless directly in conflict with what is specified in the agreement, the laws, ordinances, codes, resolutions, rules, regulations, plans and design and improvement standards adopted by the Board or the regional transportation commission and in effect at the time of issuance of any required construction or building permit shall apply;
- vi.** Specify other conditions, terms, restrictions and requirements for other discretionary actions;
- vii.** Address the issues identified in the Public Facilities Needs Assessment relating to this project if a Public Facilities Needs Assessment has been approved for the subject property in accordance with this Title; and
- viii.** Contain a description of the final resolution proposed for each of the issues identified, and any other information identified and deemed necessary as a result of any action by the Board.

B. A development agreement may:

- i.** Provide for commencement and completion of various portions of the proposed development. Each portion or phase of development or improvement contemplated should be able to stand alone, independent of proposed further phases or improvements. Subsequent phases of development may be added to completed phases to achieve independent status;
- ii.** Include conditions imposed by other land use and permit approvals allowed by law

as of the effective date of the development agreement;

- iii. If required by the Board, be accompanied by a bond, posted by the property owner, to ensure provision of some or all of the public facilities;
- iv. Contain an indemnity or insurance clause requiring the developer, applicant and/or property owner to indemnify the county against certain claims arising out of the development process; and
- v. A Master Development Agreement may contain a reference to utilization of the Major Projects Review Team and the additional fees required therein.

C. The development agreement also may cover any other matter not inconsistent with this Chapter, nor prohibited by law.

11. **Issue Resolution Letter.** A letter from the Director of Comprehensive Planning indicating that the proposed development agreement is in substantial compliance with this Title and that all identified issues have been resolved as required by the Board as reflected in the proposed development agreement, which has been accepted as sufficient for consideration by the Board.
12. **Assessor's Map(s).** The most recent official assessor's plat map or maps, to scale, indicating the subject parcels, together with a list of all of the parcel numbers included within the proposal if more than one parcel is involved.
13. **Legal Description.** The legal description of the property shall be typed on a clean sheet of paper. The legal description of the easement and/or right-of-way or area to be vacated or reconveyed must be typed on the Exhibit A form provided by the Zoning Administrator.
14. **Zoning Map.** A black and white zoning map, or set of maps, drawn to scale on paper no larger than eight and one-half (8 ½) inches by fourteen (14) inches, indicating the location of the proposed zoning districts along with the proposed acreage of each district.
15. **Zoning Map - PC (Planned Community).** A zoning map no larger than eight (8) inches by fourteen (14) inches for the entire area covered in the Development Plan which shall indicate the location of the proposed zoning districts, along with the proposed acreage of each type shall be recorded to reflect the most recently approved Development Plan.
16. **Preliminary Traffic Impact Analysis.** A study, performed by a professional engineer, that assesses the impacts of a proposed development on the existing and future multi-modal transportation network generated at full build out of the development and surrounding area. The analysis shall include alternative modes of transit, including walking, bicycling, and mass transit. The analysis must estimate traffic volumes generated by the development proposed and distribute and assign these volumes to the study area streets and intersections. The limits of the study area will be determined in a meeting between the developer and the County. Pedestrian safety needs, including safe routes for public school attendees, must be addressed. Any proposed methods of traffic demand management (TDM) should also be included. A level of service (LOS) analysis must be furnished for each study area intersection under estimated build out traffic volumes. The preliminary traffic impact analysis shall include proposed mitigation measures to improve the level of service of any intersection within the study area projected to have a level of service of "E" or lower due to the proposed development.

- b.** If the Director of Comprehensive Planning or Zoning Administrator determines that any of the listed documents are not necessary for a particular application, he/she may waive the requirement for the submission of the document. Duplicate documents for multiple applications being considered at the same hearing are not required. If the nature of a particular application necessitates the submittal of additional documentation, such documentation may be required by the Zoning Administrator. (Ord. 3520 § 3 2007; Ord. 2510 § 4 (part), 2000)

30.20.120 Conformance to Plans.

- a. General Conformance.** Approval of a *Major Project* and associated plans, conditions, restrictions and rules shall be binding on the applicant. The violation of such shall be sufficient to cause the application to become invalid.
- b. Substantial Conformance.**

 - 1. Submission of more detailed plans for subsequent phases of an approved Major Project which do not include substantial changes from the originally approved plans, as determined by the Zoning Administrator, will be considered in substantial conformance.
 - 2. The following change to a Specific Plan or Development Plan are considered minor and shall require a design review, as a public hearing, to be presented to the Board.

 - A. An addition to the originally approved development plan of no more than ten percent of residential land or ten percent of non-residential private land uses of the total land area; or
 - B. No more than a ten percent increase in the originally approved number of dwelling units; or
- c. Substantial Changes to an Approved Major Project.**

 - 1. In addition to, and prior to, any required additional land use approvals, any substantial change to a *Major Project* shall require the same submittals, processing, hearings and review as though it were a new Major Project. For the purposes of this Section, substantial change shall be defined as:

 - A. An addition of more than five percent or one hundred acres (of original approval), whichever is greater; or
 - B. An addition of dwelling units within the originally approved land area which exceeds the maximum number of dwelling units approved for the project by more than ten percent; or
 - C. An addition of more than ten percent in non-residential acreage; or
 - D. A change in the principal use from what was shown and approved on the original plans.
 - 2. The request shall be accompanied by documentation of unforeseen changes in the marketplace, government regulations or natural conditions that have occurred since the original major project approval which necessitate the amendment to the project.
 - 3. The submission of more detailed plans for subsequent phases of an approved major project within the originally approved land area which substantially conform with the original approval will not be considered a substantial change.
 - 4. The addition of acreage less than 5% or 100 acres shall require approval of a modified development plan to address the added acreage only together with any required land use application.
